Mike,

With a group the size of ours, there is no perfect time, but Wednesday October 8 from 11-1 works best at our end. We look forward to meeting with you.

This morning you and I discussed aquifer exemption applications to be submitted informally to test the process. And I know you want to have some idea of the number of exemption applications that might be headed your way once a process is in place, as well as some idea of the number of wells we have permitted in the past couple of years into aquifers whose exemption we are working on. I think what would be helpful to the effectiveness of our meeting is if you and David could send us, asap, the specifics of any information we can get together in advance of the meeting.

Thanks.

Steve
